Experience

Front

Senior Engineering Manager, 2024-Present

Leading the Core Product and Activation teams, managing 12 engineers.

- Led Core Product through Front's most foundational change of the last 5 years - building ticketing to compete directly in the customer support market.
- Built the activation team into Front's most successful data-driven growth team to date, driving revenue opportunities in our uncovered book.
- Spearheading engineering org wide improvements in our hiring processes
- Trusted engineering voice to work directly with high value customers on the most sensitive issues

Engineering Manager, 2023-2024

Leading the Core Product team.

Software Engineer, 2021-2023
